

**For immediate press release: 7/28/08**

**Artist: Tyrone**

**Album: Heavy labor, no breaks...**

**Label: Subnoise.com**

**Heavy labor, no breaks the record, another classic for the genre and a milestone for the workin' class hero...**

TYRONE Tyrone's debut album "Heavy labor, no breaks", display his talent as a creative wordsmith, his hot song writing, and incredible production skills. The 14 track album deals with subject matters from work, spirituality to the daunting task of positively raising a family in the perils of the inner city through a "blue collar working man's perspective". The album includes the hits "The coolest bruva" (original) a song that inspire regular hard working people to be proud of who they are no matter what their finances are, "Wondering" a creative song about an crush on an Asian woman he encounters every morning at the coffee shop before his commute to work, and songs like "The bug" and "Love buggin" that show diversity displaying social consciousness and marriage issues. The record is well rounded in sound and mood, and the fact that he wrote the album, produced and recorded it puts him in the same league as a Kanye West, Dr. Dre or the multi talented eclectic music of Shuggie Otis. Under the name LHAM:7; Tyrone made his dent in the underground with a cameo on C.A.V.E's, "Ice, water and steam", but really set it off with the song "The war" on the Evolution of Hip Hop compilation in which was later picked up by Snowboarder Magazine's "Couching Tiger" DVD and soundtrack. The album "Heavy labor, no breaks" feature's include, Rich Tycoon AKA Filthy Rich, (San Quinn, Edawg/Sir Mixalot) La Push (Lucky Brown), Delb of Megatron. (Sharon Jones and the Dap Kings) and Dj Topspin. Tyrone enjoyed the spotlight in 2007 as Toney Parka of Raw Dialect was featured on "The coolest bruva remix". With a radio campaign through Foundation Media and a national tour Toney Parka secured a strong following and Tyrone reaped a huge benefit as the sole producer and artist on the remix. Tyrone had the honor of having the #1 download on the biggest urban website in Australia (Planeturban.com.au), and it catapulted a huge following online via [www.tyronesmusic.com](http://www.tyronesmusic.com) and his myspace page [www.myspace.com/tyronesubnoise.com](http://www.myspace.com/tyronesubnoise.com). Simply read some of the fan reviews and comments on either of his fansites to see that the need of the debut album of Tyrone is more than hype, but anticipation from a sought after producer/artist with fans all over the globe. Don't be the last to find out...
